

Characteristics

Palermo auxiliary wardrobe is specially designed to be used in hospitals, clinics, nursery homes and also in home care.

Algunas de sus características principales son:

- Structure:

Wardrobe made fibre laminated DM panels covered in PVC laminate, what makes it very light.

It has rounded edges, providing high impacts and abrasion resistance.

- Wheels:

Four (4) double pivoting wheels with independent brake.

- Doors

Hinged double doors, with ergonomic metallic handles.

Also it has the possibility to incorporate a coin lock.

- Inside:

The wardrobe inside is structured in three spaces.

The upper space is the largest and in the top bar is included as a coat rack.

Bottom space divided by two shelves transversely placed and made of the same material as the wardrobe sides
